SUBJECT INDEX

Ag(I) complex
Thermodynamic relationships of complex formation. Part I. Non-linear free energy relationships (NLFER) in Ag(I) Complex formation in aqueous solutions, 203
Aluminum oxide
Emanation thermal analysis studies of surface layer of aluminum oxide powders prepared by various grinding and sieving treatments, 117
3-Arylimino-3H-indole *N,N'*-dioxides
Calorimetric analysis of the protonation process for 3-arylimino-3H-indole *N*-oxides and *N,N'*-dioxides in acetonitrile, 185
3-Arylimino-3H-indole *N*-oxides
Calorimetric analysis of the protonation process for 3-arylimino-3H-indole *N*-oxides and *N,N'*-dioxides in acetonitrile, 185

Benzothiazoles
The direct current electrical conductivity of the charge transfer complexes of some thiazoles and benzothiazoles with certain di- and trinitrobenzene derivatives, 331
Benzoylpyridine
On the thermal decomposition of some coordination compounds of copper(II) with benzoylpyridine, 249
Biphthalocyanine complexes
Electric studies on some metal biphthalocyanine complexes, 257
Brominated epoxy resins
The curing kinetics of brominated epoxy resins, 127

Calcination temperature
A study of the effect of calcination temperature on the interaction between the active component and the carrier of a catalyst using thermoanalysis and X-ray diffraction, 9
Calsol
A new solution calorimeter: the Calsol (in French), 81
Cancrinite–natrodavyne
Synthesis and characterization of the basic and non-basic members of the cancrinite–natrodavyne family, 19
Chelation
Substituted metal carbonyls. Part XVII. Thermal decarbonylation and chelation of $M(CO)_5(\eta^1\text{-dppf})$ and $Fe(CO)_4(\eta^1\text{-dppf})$ [where M = Cr, Mo, W; dppf = $(Ph_2PC_5H_4)_2$, 287
Cl_2–HF(g)
Molecular thermodynamics of free internal rotation versus harmonic trosional vibration: formation of the complex Cl_2–HF(g), 143
Conjugated triple bonds
Thermodynamic properties of linear carbon chain molecules with conjugated triple bonds. Part I. Polyacetylenes, $H(C{\equiv}C)_nH$ ($n = 2$–6), cyanopolyacetylenes, $H(C{\equiv}C)_nC{\equiv}N$ ($n = 1$–5), and dicyanopolyacetylenes, $N{\equiv}C\text{-}(C{\equiv}C)_nC{\equiv}N$ ($n = 1$–4), 273
Coordination compounds
Coordination compounds as raw materials for mixed oxides. Part IX. Thermal decomposition of some copper–lanthanide mandelato complexes, 231
On the thermal behaviour of two coordination compounds of Ni(II) and Co(II), 241
On the thermal decomposition of some coordination compounds of copper(II) with benzoylpyridine, 249
18-Crown-6
The complexation of 18-crown-6 with NaCl in dioxane–water and determination of equilibrium constants with ion selective electrodes, 67
Curing kinetics
The curing kinetics of brominated epoxy resins, 127
Cyanide
A thermoanalytical study of the decomposition of a cyanide precipitate in inert and reducing atmospheres, 213
Cyanopolyacetylenes
Thermodynamic properties of linear carbon chain molecules with conjugated triple bond. Part I. Polyacetylenes, $H(C{\equiv}C)_nH$ ($n = 2$–6), cyanopolyacetylenes, $H(C{\equiv}C)_nC{\equiv}N$ ($n = 1$–5), and dicyanopolyacetylenes, $N{\equiv}C\text{-}(C{\equiv}C)_nC{\equiv}N$ ($n = 1$–4), 273
β-Cyclodextrin
Decomposition kinetics of β-cyclodextrin and inclusion complex of β-cyclodextrin with ibuproxam, 2-(4-isobutylphenyl)propiohydroxamic acid, 75

Decarbonylation
Substituted metal carbonyls. Part XVII. Thermal decarbonylation and chelation of $M(CO)_5(\eta^1\text{-dppf})$ and $Fe(CO)_4(\eta^1\text{-dppf})$ [where M = Cr, Mo, W; dppf = $(Ph_2PC_5H_4)_2$, 287

1,2-Dichloroethane
Thermodynamic and spectroscopic properties of phosphorus compounds. Part 2. Excess volumes and excess dielectric properties of binary mixtures of trimethylphosphate with dichloromethane and 1,2-dichloroethane, 135
Dichloromethane
Thermodynamic and spectroscopic properties of phosphorus compounds. Part 2. Excess volumes and excess dielectric properties of binary mixtures of trimethylphosphate with dichloromethane and 1,2-dichloroethane, 135
Dicyanopolyacetylenes
Thermodynamic properties of linear carbon chain molecules with conjugated triple bonds. Part I. Polyacetylenes, $H(C\equiv C)_nH$ ($n = 2$–6), cyanopolyacetylenes, $H(C\equiv C)_nC\equiv N$ ($n = 1$–5), and dicyanopolyacetylenes, $N\equiv C-(C\equiv C)_nC\equiv N$ ($n = 1$–4), 273
N,N′-Dimethylformamide
Excess enthalpies of binary solvent mixtures of methanol, ethanol and 1-propanol with formamide, *N*-methylformamide and *N,N*-dimethylformamide, 311
Dinitrobenzene
The direct current electrical conductivity of the charge transfer complexes of some thiazoles and benzothiazoles with certain di- and trinitrobenzene derivatives, 331
Dioxane
The complexation of 18-crown-6 with NaCl in dioxane–water and determination of equilibrium constants with ion selective electrodes, 67
N,N′-Dioxides
Calorimetric analysis of the protonation process for 3-arylimino-3H-indole *N*-oxides and *N,N′*-dioxides in acetonitrile, 185

Emanation thermal analysis
Emanation thermal analysis studies of surface layer of iron oxide powders prepared by various grinding treatments, 109
Emanation thermal analysis studies of surface layer of aluminum oxide powders prepared by various grinding and sieving treatments, 117
Ethanol
Excess enthalpies of binary solvent mixtures of methanol, ethanol and 1-propanol with formamide, *N*-methylformamide and *N,N*-dimethylformamide, 311
Excess Gibbs free energies
Excess Gibbs free energies of mixtures of substances containing nitrogen groups, 33

Formamide
Excess enthalpies of binary solvent mixtures of methanol, ethanol and 1-propanol with formamide, *N*-methylformamide and *N,N*-dimethylformamide, 311

γ-Hexachlorocyclohexane
Enthalpies of fusion and sublimation of γ-hexachlorocyclohexane (in French), 339
4-Hydroxybenzoates
Solution thermodynamics of 4-hydroxybenzoates in water, 95% ethanol–water, 1-octanol and hexane, 59

Ibuproxam
Decomposition kinetics of β-cyclodextrin and inclusion complex of β-cyclodextrin with ibuproxam, 2-(4-isobutylphenyl)propiohydroxamic acid, 75
Indium
Molten lithium nitrate–potassium nitrate eutectic: the reaction of compounds of indium, 295
Ir/Al_2O_3 catalyst
Determination of the despersity of metal on Ir/Al_2O_3 catalyst by thermogravimetry, 1
Iron
Temperature distributions in plastic and in iron: comparative study and application, 51
Iron oxide
Emanation thermal analysis studies of surface layer of iron oxide powders prepared by various grinding treatments, 109

Liquid crystals
A DSC study of a new series of liquid crystals— 2-(4-alkoxybenzene)-6-substituted benthiazoles, 305
Lithium nitrate
Molten lithium nitrate–potassium nitrate eutectic: the reactin of compounds of indium, 295

Mandelato complexes
Coordination compounds as raw materials for mixed oxides. Part IX. Thermal decomposition of some copper–lanthanide mandelato complexes, 231
Metal carbonyls
Substituted metal carbonyls. Part XVII. Thermal decarbonylation and chelation of $M(CO)_5(\eta^1\text{-dppf})$ and $Fe(CO)_4(\eta^1\text{-dppf})$ [where M = Cr, Mo, W; dppf = $(Ph_2PC_5H_4)_2$, 287
Methanol
Excess enthalpies of binary solvent mixtures of methanol, ethanol and 1-propanol with formamide, *N*-methylformamide and *N,N*-dimethylformamide, 311

N-Methylformamide
Excess enthalpies of binary solvent mixtures of methanol, ethanol and 1-propanol with formamide, *N*-methylformamide and *N*,*N*-dimethylformamide, 311
Modified Wilson model
Thermodynamic properties of non-electrolyte solutions. Part 4. Estimation and mathematical representation of solute activity coefficients and solubilities i binary solvents using the NIBS and Modified Wilson equations, 151

NaCl
The complexation of 18-crown-6 with NaCl in dioxane–water and determination of equilibrium constants with ion selective electrodes, 67
Neodymium trichloride hydrates
Estimation of vapour pressures of neodymium trichloride hydrates, 169
NIBS model
Thermodynamic properties of non-electrolyte solutions. Part 4. Estimation and mathematical representation of solute activity coefficients and solubilities in binary solvents using the NIBS and Modified Wilson equations, 151
Nitrogen groups
Excess Gibbs free energies of mixtures of substances containing nitrogen groups, 33
NLFER
Thermodynamic relationships of complex formation. Part I. Non-linear free energy relationships (NLFER) in Ag(I) complex formation in aqueous solutions, 203
Non-electrolyte solutions
Thermodynamic properties of non-electrolyte solutions. Part 4. Estimation and mathematical representation of solute activity coefficients and solubilities in binary solvents using the NIBS and Modified Wilson equations, 151
Non-isothermal kinetics
Some problems concerning the temperature integral in non-isothermal kinetics. Part II. A new criterion to compare the accuracy of various approximations. A new third order rational approximation, 223

Oxalates
The thermal decomposition of oxalates. Part 23. An isothermal kinetic study into the effect of the environmental atmosphere on the thermal decomposition of silver oxalate, 263

Plastic
Temperature distributions in plastic and in iron: comparative study and application, 51

Polyacetylenes
Thermodynamic properties of linear carbon chain molecules with conjugated triple bonds. Part I. Polyacetylenes, $H(C{\equiv}C)_nH$ ($n = 2$–6), cyanopolyacetylenes, $H(C{\equiv}C)_nC{\equiv}N$ ($n = 1$–5), and dicyanopolyacetylenes, $N{\equiv}C\text{-}(C{\equiv}C)_nC{\equiv}N$ ($n = 1$–4), 273
Potassium nitrate
Molten lithium nitrate–potassium nitrate eutectic: the reaction of compounds of indium, 295
1-Propanol
Excess enthalpies of binary solvent mixtures of methanol, ethanol and 1-propanol with formamide, *N*-metylformamide and *N*,*N*-dimethylformamide, 311

Silicon nitride
The sintering kinetics of reaction bonded silicon nitride by using non-isothermal technique, 99
Silver oxalate
The thermal decomposition of oxalates. Part 23. An isothermal kinetic study into the effect of the environmental atmosphere on the thermal decomposition of silver oxalate, 263
Surface layer
Emanation thermal analysis studies of surface layer of iron oxide powders prepared by various grinding treatments, 109
Emanation thermal analysis studies of surface layer of aluminum oxide powders prepared by various grinding and sieving treatments, 117

Temperature gradient
Temperature gradient in differential scanning calorimetry, 195
Thiazoles
The direct current electrical conductivity of the charge transfer complexes of some thiazoles and benzothiazoles with certain di- and trinitrobenzene derivatives, 331
Thiocyanatobismuthates(III)
Kinetic parameters of thermal decomposition of thiocyanatobismuthates(III). Part II. Double salts, 321
Trimethylphosphate
Thermodynamic and spectroscopic properties of phosphorus compounds. Part 2. Excess volumes and excess dielectric properties of binary mixtures of trimethylphosphate with dichloromethane and 1,2-dichloroethane, 135
Trinitrobenzene
The direct current electrical conductivity of the charge transfer complexes of some thiazoles and benzothiazoles with certain di- and trinitrobenzene derivatives, 331
